
Multi-Class Potential Field Vector Superposition and Boltzmann Landscape Dynamics
(a) Multi-Class Potential:
Dominant Field $\max_k V_k$
(b) Vector Streamlines
& Attractor Sinks
(c) Softmax Posterior Confidence $P(y=0 \mid \mathbf{x})$
Spatial Feature X_1
Spatial Feature X_2
Class 0 (Alpha)
Class 1 (Beta)
Class 2 (Gamma)
Triple-Point Saddle
Attractor 0
Attractor 1
Attractor 2
Physics Recourse
Starting Query
Class 0 Samples
Class 0 Peak
Boltzmann Posterior $P(y=0 \mid \mathbf{x})$
